/Source/UI/W.h

```
graph BT; A["/Users/wilfeli/Dropbox<br/>/ABM/SolarPanels/ABMIRISLab<br/>/Source/Agents/SEI.cpp"] --> C["/Users/wilfeli/Dropbox<br/>/ABM/SolarPanels/ABMIRISLab<br/>/Source/UI/W.h"]; B["/Users/wilfeli/Dropbox<br/>/ABM/SolarPanels/ABMIRISLab<br/>/Source/UI/W.cpp"] --> C;
```

The diagram illustrates a dependency structure where two source files, SEI.cpp and W.cpp, both include the header file W.h. The header file is located at the top level of the directory structure, while the source files are in subdirectories. Arrows point from the source files to the header file, indicating the inclusion relationship.
