/Source/Tools/WorldSettings.h

```
graph BT; A["/Users/wilfeli/Dropbox  
/ABM/SolarPanels/ABMIRISLab  
/Source/Agents/H.cpp"] --> C["/Users/wilfeli/Dropbox  
/ABM/SolarPanels/ABMIRISLab  
/Source/Tools/WorldSettings.h"]; B["/Users/wilfeli/Dropbox  
/ABM/SolarPanels/ABMIRISLab  
/Source/Tools/WorldSettings.cpp"] --> C;
```

The diagram illustrates a dependency structure where two source files, `H.cpp` and `WorldSettings.cpp`, both include the `WorldSettings.h` header file. The header file is located at the top, and the two source files are positioned below it, with blue arrows pointing from each source file to the header file.
